** Range will be closed during the following dates for hunting.
 Nov 26 thru Dec 6 and Dec 24 thru Dec 28. **

Class Schedule

Date	Start Time	End Time	Course	Cost
Wednesday, December 2, 2020	7:30 AM	2:00 PM	Online Hunter Safety	
Sunday, December 6, 2020	7:30 AM	Finish	RSO	\$125

There have been no changes for the past 3 months, of the CleanUp & Improvements strategic items list that the club is working on. These items are for the general beautification and maintenance of the buildings and grounds.

Blast From the Past
December 1966

Directors Meeting
Dec. 7, 66

The meeting was called to order by the President Howard Tyeryar. The Frederick County Council of Sportsmen will have an outdoor show in Feb. to be held at the "lair Armory. The club will have a display booth at this show. With the electric account over the budget for the year, Mr. Warren made a motion to pay the current bill sedonded by Mr. Strawsbyrg.

Mr. Evans stated there were a number of hunters not satisfied with the date set for opening day of deer season in the state. A petition concerning this showing the names of hunters from various counties of the state was presented by Mr. Evans. After s short discussion it was decided to have Mr. Evans take this matter before the Frederick County Council of Sportsmen for further action.

The meeting was then adjourned.

Respectfully submitted

Austin Baumgardner
Sec.

Regular Meeting for December
1966

The meeting was called to order by the President Howard Tyeryar. Minutes of the previous meeting were read and approved. The treasurer Mr. Kirk reported a balance of \$142.03 in the checking account and \$320.77 in the savings account. All outstanding bills to date have been paid.

One new member was accepted, Mr. Austin Renn by motion of Mr. Warren seconded by Mr. Strawsburg.

The President announced the Water Resources Meeting will be held Tuesday Dec. 20, 1966 at 2:30 P.M. in Winchester Hall. All members are welcome to attend. Our club will be represented by the President.

The Antler Committee reported the results of their first contest. First prize went to Mr. Leroy Smith of Middletown with an 8 point measuring 125 3/4". Second prize went to Mr. Clyde Lenhart of Adamstown, another 8 point measuring 125 1/8". Mr. Berner of the Boone and Crockett Club gave an excellent demonstration of measuring a Deer rack.

The Frederick County Council of Sportmen have postponed their Sportsmen's Show until April and will hold it at the Frederick Fair grounds.

The Beagle Trial Committee reported \$5.25 profit on the November trial.

Our 1967 budget is posted on the bulliten board. An all out effort is needed to acquire our 150 membership to meet this budget.

Respectfully submitted,

Austin Baumgardner
Sec.

The Directors meeting for the month of Jan. 67 was cancelled.

Board Meeting Reminder

The Chapter Board of Directors meets each month just prior to the regular Membership Meeting. Members are welcome and encouraged to observe these open meetings which address the business of the Chapter. However, for the Board to effectively and efficiently conduct the meetings, members may not interact with the Board during the meetings. Members may bring up any issues they may have during the Membership Meeting. Thank you for your understanding.

Range Change Notice Reminder Friday Shotgun

Monthly every 2nd and 4th Fridays, are for shotgun practice.

Rules for even Fridays for shotgun shooting will stay the same. (must attend an update range rules for shotgun shooting if you have not done that already)

Any questions please contact Ben Kelkye.

Grounds Maintenance

We rely on the efforts of our members to maintain the Chapter's property, and this is a good way to satisfy some or all of your work requirements. If the grass needs mowing and you have the time, please cut it. The mowers and trimmers are in the shed and the lock code is the same as for the gate. In addition to recording your time on your work hour's card, please use the clipboard in the shed to report all of your work hours and to report the status of any equipment needing maintenance or repairs.

Grounds Maintenance Committee

*** We have an opening for the Building and Grounds Committee lead. This committee serves as organizers for maintaining the grounds and buildings. Such activities and needs include building maintenance, grass cutting, snow removal, and light capital improvements to the building.

Courses

The full schedule of courses to be conducted at the Chapter house for the year **2020 is below and online.** at the Chapter website at [FrederickIWLA Training Schedule 2020](#), This training is conducted to support the Youth Program, and not all courses are endorsed or promoted by the Chapter. However, certain courses are required for members to use the range and hunt on Chapter property. The schedules are posted for the convenience of members in determining the expected status of the range at a particular time, and for selecting courses they may be interested in. Contact Ben Kelkye if you have any questions about the schedule or courses.

Range Status

The range is currently open as usual for members to use. Please remember that every Friday is reserved for Special Activities. Before heading to the range, members should always check the Calendar of Events under the Events tab on the Chapter website for current range status information. Range use is occasionally limited due to training classes and other events.

The 200-yard berm improvements are still not complete. Until this work is completed, the 200-yard range is not available for use.

Any guest using the range must be supervised by a Chapter member with Range Safety Officer credentials. A fee of \$5.00 for each guest is to be paid at the donation box under the sign-in box. **Only one bench may be used by the member and guest.** The same guest may visit the range only two times a year. The guest fee and two-visit limit do not apply to the immediate family of members.

MARYLAND WEAR AND CARRY PERMIT APPLICATION PROCESS WENT ONLINE ON OCTOBER 1, 2019

For further information visit: <https://mdsp.maryland.gov/Pages/default.aspx>

NRA Membership

Would you like to join the NRA or do you need to renew your Membership? You can now do it On the Frederick Chapter website and the membership is only \$35 instead of the normal \$45. This is a win-win situation for you and the chapter because you save \$10 and the chapter will get \$12 for each new membership and \$6 for each renewal.

Chapter Work Requirement

The Chapter work requirement for individual and family memberships can be found on the Chapter website at [Join the Chapter](#). All questions regarding the work requirement should be addressed to Hiram Escabi at hiram.escabi@usa.net

Your Newsletter

Any time you have information or articles you think appropriate for the newsletter, or comments on the newsletter, send them to newsletter@frederickiwl.org.

We remind you to keep your postal and email address current. If you are reading this on the Chapter website and did not get an emailed link, then let us know.

Wind Chill

Wind Chill is a term used to describe what the air temperature *feels* like to the human skin due to the combination of cold temperatures and winds blowing on exposed skin. In simple terms, the colder the air temperature and the higher the wind speeds the colder it will feel on your skin if you're outside. So even if it remains the same temperature, but the wind speed increases it will actually feel colder to your skin.

So why does it feel colder if the wind speed increases but the temperature remains the same? The reason is because as wind blows across our bodies it takes the heat we naturally emit and blows it away from our bodies. The faster the wind speed the faster our body heat is taken away and the colder it feels. It is a similar process for when you blow on a hot bowl of soup to cool it down. The temperature that it *feels like* outside due to the air temperature and wind speed is called the "Wind Chill."

Below is a chart that shows the wind chill for various air temperatures and wind speeds. The colors represent a frostbite indicator, showing the points where temperature, wind speed and exposure time will produce frostbite on humans. Each shaded area shows how long a person can be exposed before frostbite develops. For example, a temperature of 0°F and a wind speed of 15 mph will produce a wind chill temperature of -19°F. Under these conditions, exposed skin can freeze in 30 minutes.

Safety Tips

- If you have to go outside in extreme cold, dress for the conditions:
 - wear several layers of light-weight, warm clothing.
 - outer garments should be tightly woven, waterproof and hooded.
 - for the hands, mittens are better than gloves...and make sure they are snug at the wrists.
- Avoid overexertion, such as shoveling heavy snow, pushing a car, or walking in deep snow. The strain from the cold and the hard labor may cause a heart attack. Sweating could lead to chill and hypothermia.

Wind Chill Chart

The NWS Wind Chill Temperature index uses advances in science, technology, and computer modeling to provide an accurate, understandable, and useful formula for calculating the dangers from winter winds and freezing temperatures. In early summer of 2001, Human trials were conducted at the Defense and Civil Institute of Environmental Medicine in Toronto, Canada. The trial results were used to improve the accuracy of the new formula and determine frostbite threshold values. During the human trials, twelve volunteers (six men and six women) were placed in a chilled wind tunnel and thermal transducers were stuck to their faces to measure heat flow from the cheeks, forehead, nose and chin while walking 3 mph on a treadmill. Each Volunteer participated in four trials of 90 minutes each and was exposed to varying wind speeds and temperatures. The new wind chill index is now being used in Canada and the United States.
